SHREE RAKSHA SIVASUBRAMANI

Worcester, MA | (508)-304-5334 | shreerakshu02@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Results-oriented Senior Data Analyst & Technical Consultant with a STEM Master's in Data Analytics and over 2+ years of experience specializing in SAP HANA data migration, AI-driven workflow automation, cloud data warehousing, and business intelligence solutions. Expertise in architecting ETL/ELT pipelines, automating business file transformations using AI tools, and delivering advanced financial and sales analytics across pharmaceutical and enterprise sectors. Proficient in SQL, Python, Snowflake, dbt Cloud, AWS S3, SAP HANA/ECC, Palantir Foundry, and Tableau.

CORE COMPETENCIES

- **Data Migration & ETL Architecture:** SAP HANA Migration, SAP ECC, dbt Cloud, Fivetran, Apache Airflow, Data Pipeline Engineering
- **Cloud & Data Warehousing:** Snowflake, AWS (S3), Palantir Foundry, Microsoft SQL Server, MySQL, Firebase, MongoDB
- **AI & Automation:** AI Tool Integration for Template & File Automation, Python (Pandas, NumPy), Automated Data Validation Scripts
- **Analytics & Business Intelligence:** Gross-to-Net (GTN) Analysis, Daily Sales Unit (DSU) Reporting, Tableau, Power BI, SAP Analytics Cloud (SAC)
- **Data Governance & Quality:** System Reconciliation, Variance Analysis, Real-Time B2B Data Integration

PROFESSIONAL EXPERIENCE

Marlabs LLC | Boston, MA **July 2025 – Present**

Data Analyst / Technical Consultant

- **Project BREAKAWAY & SAP HANA Migration:** Lead data analysis and pipeline engineering efforts supporting end-to-end data migration from legacy SAP ECC systems to SAP HANA and Snowflake.
- **AI Tool Integration & Automated Template Creation:** Spearheaded the implementation of AI tools to parse, analyze, and convert static business files into automated, reusable data processing templates, reducing manual report preparation time.
- **Pharmaceutical & Market Access Analytics:** Build scalable data transformation models in dbt Cloud using SQL to drive Gross-to-Net (GTN) variance analysis, Daily Sales Unit (DSU) reporting, and post-deal contract evaluation.
- **Cross-System Data Reconciliation:** Ingest actuals and forecasting data from Model N, SAP, and AWS S3 via Fivetran, conducting multi-system reconciliation using Palantir Foundry to validate revenue and volume variances.
- **Workflow Automation:** Orchestrate Python and Apache Airflow scripts for automated data extraction, error monitoring, and dynamic dashboard feeds in Tableau and SAP Analytics Cloud (SAC).

Enterprise Solutions, Inc. | Naperville, IL **June 2024 – July 2025**

Business Analyst / Technical Consultant (Client: LTIMindtree)

- **Technical Assessment & Integration:** Led the design and technical setup connecting SAP modules (Sales, Billing, Finance) with cloud platforms.
- **B2B Supply Chain Data Ingestion:** Configured real-time B2B integration pathways between Uptimize, AWS S3, and external trade partners (wholesalers and specialty pharmacies) using Fivetran.
- **Quality Assurance & Testing:** Developed and executed automated test scripts to ensure data integrity during inventory and ex-factory sales forecasting updates.

Tata Consultancy Services | Bangalore, India **Feb 2022 – Jul 2022**

Data Analyst Intern

- **Large-Scale Data Engineering:** Processed over 3 million data points using SQL and Python (Pandas) to support machine learning models for predictive health diagnostic systems.
- **Executive Dashboarding:** Designed executive analysis dashboards in Tableau, improving assessment accuracy and reporting efficiency by 30%.

Samsung | Bangalore, India **May 2021 – Jan 2022**

User Interface Intern

- **Server-Driven Architecture:** Engineered a Server-Driven UI (SDUI) framework using React Native, Node.js, and Firebase, increasing front-end rendering efficiency by 35%.

TECHNICAL PROJECTS

Clark University | Worcester, MA **Aug 2022 – Dec 2023**

Academic Projects

- **IMDB Sentiment Analysis:** Applied NLP techniques in Python to perform sentiment analysis on large-scale textual user review datasets.
- **Temu Supply Chain Analytics:** Constructed interactive Tableau dashboards to optimize warehouse allocation and logistics management.
- **LA Crime Analysis (Splunk):** Processed municipal datasets in Splunk Enterprise to highlight pattern trends and demographic distribution.

PSG College of Technology | Coimbatore, India **Aug 2018 – May 2022**

Academic Projects

- **Secure OTA Update System:** Implemented AES encryption on cloud networks for secure vehicle software deployment.
- **Heart Disease Prediction Model:** Developed an ensemble multi-level stacking model for predictive diagnosis.

EDUCATION & CERTIFICATIONS

Master of Science in Data Analytics (STEM) | GPA: 3.94/4.0

Clark University, Worcester, MA | Graduated: Dec 2023

Bachelor of Technology in Information Technology | GPA: 8.5/10

PSG College of Technology, Coimbatore, India | Graduated: May 2022

Certifications: Tableau Desktop Specialist | AWS Certified Associate Developer | Snowflake | Docker | Google Analytics
